

What are the ECO team up to this term?

We are the eco team and we are trying to get the eco award by the end of the year. We are trying our best to save energy and help the planet. We have done surveys on our school and the three topics we have chosen are energy, biodiversity and marine. We have got energy monitors for the classrooms to make sure that we are not using energy when not needed. To help you could :

- Turn off your lights when not needed
- Turn off your radiators when you can put on another jumper
- If you have a TV don't leave it on when you are not watching it
- Don't leave doors open if you have the heating on
- Open the curtains and try to use natural light instead of turning your light on

From Ruby, Kitty, Olivia, Darci, Molly, Tom, Winter, Millie, Elodie and Hadley

We are also taking part in The Big Plastic Count.

LET'S INVESTIGATE TO STOP THE PLASTIC CRISIS

Nearly 2 billion pieces of plastic packaging are being thrown away each week in the UK, and just 12% is recycled.

It's time the government got serious about tackling the plastic crisis. You can help by taking part in The Big Plastic Count!
