Absent:

No-one

Notes from previous meeting:

Mrs Middleton has taken the designs and is ringing round to get quotes from different companies and organisations.

Theme for meeting:

Online Safety Week

This week the Ambassadors need to plan for online safety week (wk: beginning 6th February) A question for the class is:

- What online issues really matter to children and young people?
- What changes do they want to see about online safety?
- How can we all work together to help us talk about it?

We are meeting the MAD ambassadors tomorrow at 9.30am to share our ideas.

Notes:

MB – if it happens at home we tend to talk about it with our parents

CH – all our games are at home so it probably only happens at home so there is no need to talk about it at school

DVK – School can help get sort it out and it's important not to ignore it

AW – not sure if it's who they say they are so we are worried about telling anyone

EH – they didn't say it to your face so it's harder to talk about online problems

EOC – I am nervous that something will happen if you say something

DVK – even if you do know who they are you still need to sort it out and say sorry

CH- there is no time to talk about it in school we are not to talk computer games we need time talk about our worries and problems online

DVK – I could make a worry box

EOC – we need 'talk time' for online issues

Next Steps:

- Please discuss this with your class and record all their ideas about how we can become better at talking about online safety...why don't we talk about it?**

DONM: Tuesday 31st January 9.30am
