What Parents & Educators Need to Know about BLUESKY SOCIAL APP

AGE RESTRICTION
13+
With an App Store rating of 17+ & Google Play rating Mature

WHAT ARE THE RISKS?

While Bluesky has been around since 2019, it's suddenly taken off in a big way thanks to a significant exodus from X (formerly Twitter). Indeed, it looks and behaves a lot like Twitter before Elon Musk bought the platform. Bluesky has been touted in recent months as a safer, more open-minded alternative to X – but like any social media site, it still has its share of risks.

NO PRIVATE ACCOUNTS

While most social networks allow accounts to be private, at the time of writing, all Bluesky accounts must be public. The development team has indicated this might change in the future, but the app is built on a public-first protocol. If private accounts are ever introduced, it may only be in a limited way – such as through the implementation of group chats.

INTERACTIONS WITH STRANGERS

Every account being public means that anyone can be contacted by anyone else. While users don't have to respond and can easily block people and move on, it does mean that youngsters are at particular risk of being conned by scammers, messaged by predatory adults or exposed to others with ill intentions. These hazards can be compounded by the fact that Bluesky doesn't require its users to provide their real name.

TROLLING AND BULLYING

While Bluesky currently feels a lot friendlier than X seems to have become, its lack of private accounts means that there's nothing to stop users from trolling and cyberbullying younger people. While accounts can be blocked and reported, a persistent bully could simply create a new profile, potentially making their victims feel unsafe in continuing to use the app.

DANGEROUS MISINFORMATION

Established news organisations have fact-checking and editing processes, but social networks have no such controls and can often serve as breeding grounds for misinformation and disinformation. Bluesky will possibly be no different once it reaches a certain size, and children may not have the critical thinking skills to tell fact from fiction – or to discern an informative, honest user from a malicious one.

ADULT TARGET AUDIENCE

Bluesky isn't designed with children in mind, and there aren't many parental controls on the platform. In an interview with the BBC, Bluesky's CEO originally said that the app would only allow users aged 18 and above to sign up, but a spokesperson later clarified its age restriction as 13+. This could imply the app was originally meant for an adult audience and suggests that making the platform more child-friendly might not currently be a priority.

RAPID GROWTH

At the time of writing, Bluesky seems calm in comparison with other social networks where moderation is lax and the atmosphere toxic – but that's due at least in part to its smaller community. The app has recently been adding as many as a million users per day, and if that continues, there'll be more unpleasant users to handle, and moderators could struggle to maintain the pleasant environment Bluesky is currently known for.

Advice for Parents & Educators

USE THE ADULT CONTENT FILTER

Bluesky doesn't have much in the way of parental controls, but there are content filters which can hide sexual and graphic imagery. These are enabled by default for underage accounts but can be manually turned on in the 'Moderation' section of the app's settings. The 'advanced' Bluesky Moderation Service lets you restrict content even further, hiding – for example – self-harm content, extremist rhetoric, and even rude posts.

ENCOURAGE BLOCKING AND REPORTING

Another tool that Bluesky uses to ensure a decent experience is muting and blocking accounts. The former prevents you from seeing a specific user's content, while the latter stops them from seeing yours. If a child is encountering trolls or bullies on the platform, encourage them to use this function, while also reporting the offenders to help make the platform a nicer place for everyone.

LOOK OUT FOR FAKES

Impersonation is a problem on all social networks. While the consequences are usually benign, imposters sometimes attempt to scam or groom children by pretending to be a popular influencer or online personality. Bluesky is unique in that it can be connected to official domains, with users' handles linking to other sites; while this isn't widely used right now, it could be a reliable way to verify celebrities and public figures in future.

KEEP AN OPEN DIALOGUE

As with all social media platforms, moderation and content filters can only do so much; it's highly likely that a child will eventually face something unsavoury. For that reason, it's important to make sure that young people are aware of the risks and know how to handle the technology if anything they see on the app makes them feel unsafe or uncomfortable.
